## Flexible Spending Account Eligible Expenses

### Which expenses can be reimbursed by an FSA?

Your [C\_Officialname] Health Care Reimbursement Flexible Spending Account lets you pay for medical care expenses not covered by your insurance plan with pre-tax dollars. The expenses must be primarily to alleviate a physical or mental defect or illness, and be adequately substantiated by a medical practitioner. The products and services listed below are examples of medical expenses eligible for payment under your [C\_Officialname] FSA, to the extent that such services are not covered by your medical and dental insurance plan.

Unfortunately, **we cannot provide a definitive list of “qualified medical expenses.”** A determination of whether an expense is for “medical care” is based on all the relevant facts and circumstances. To be an expense for medical care, the expense has to be primarily for the prevention or alleviation of a physical or mental defect or illness.

On March 27, 2020, the president signed the Coronavirus Aid, Relief and Economic Security Act ([CARES Act](#)) into law. The CARES Act repealed the Medicine Cabinet Tax provision of the Affordable Care Act, expanding the list of qualifying expenses that can be purchased with an FSA. Under the CARES Act, the definition of a qualifying medical expense now includes certain over-the-counter medications and products, including cold and flu medicine, allergy medication and menstrual products.

- Abortion
- Acupuncture
